

# Accessibilty Statement

At Tattoo FX we strive to be as inclusive as we can. We are proud of the fact that in our studio we have had many clients with varying needs get fantastic tattoos.

The Tattoo FX studio is at street level and has no internal steps throughout. Situated directly outside the studio is a free of charge, street level car park. All doors in the studio are wide enough for wheelchair access and the WC has fold down grab rails and is large enough for a wheelchair to manoeuvre within.

We are also happy to adjust our working practices for those who have sensory issues. We can work by lamp light instead of overhead light, turn off music completely, and even use machines that are quieter (though not completely silent). We won't use any strong smells if at all possible, although we do need to wipe the skin with alcohol which does have an odour.

We will also adapt as much as possible for those who have visual or auditory impairments. Whether it be bringing in a guide dog, or communicating via writing (we apologise none of us know sign language).

We are happy to work with you to make your experience as good as we possibly can. Just let us know by emailing the studio in advance of your appointment with your requirements and will do our very best to adapt to your needs.
